## HORSCH HM Plus point

- Angle carbide protects the carbide plate from erosions on the bottom side of the coulter
- Supports the carbide plate with steel bodies during the complete service life, guarantees fraction stability
- Premium HM Plus coating with own formula
- Manufactured with utmost know-how from mining and road construction engineering
- From practical experts for practical use
- Coulter point reduces to 50 mm and guarantees an optimised traction requirement
- In-house developed geometry adapted to the most different requirements of farming
  - optimum mixing capacity
- HM Plus point covers the guide plate
  - threefold to fourfold service life of the guide plate

Contact your sales partner now to order the HM Plus points (material number: **00311069**).
